

SATIN WOVEN RFID TAG

Satin woven tags integrate RFID into a soft, slightly glossy fabric, perfect for fashion, high-end garments, or children's clothing.

They can be sewn into seams or internal labels, ensuring discreet traceability without compromising comfort or aesthetics.

Ideal for brands seeking both RFID functionality and refined presentation.

MECHANICAL AND ENVIRONMENTAL SPECIFICATIONS

Dimensions: Custom

Weight: Depends on the dimensions

Material: Satin

Color: Custom

Resistant to washing (4–5 cycles) and mechanical stress, these labels are ideal for applications requiring both discretion and durability, such as technical garments, high fashion, sportswear, or professional uniforms. Their thin structure also makes them compatible with automated industrial sewing processes.

TYPES OF RFID CHIPS:

UHF: NXP U9/U9XE,U8, Impinj M730/750

PRINTING AND ENCODING:

Printing: different printings can be made on the surface – 1-4 color

Encoding: EPC or QR encoded
