

PRODUCT PORTFOLIO

GLOBAL TAG RFID WRISTBY PORTFOLIO

Global Tag **WRISTBY** Portfolio is the wide range of RFID/NFC wristband tags with many different features, suggested for several applications.

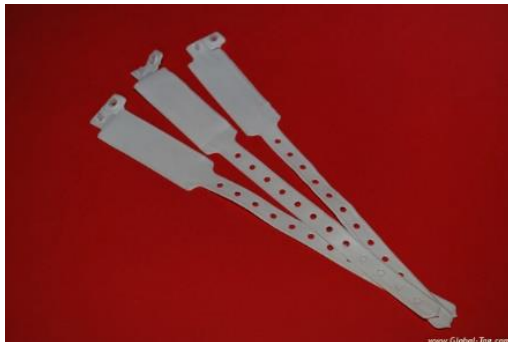

The different models allow to cover different needs, and this is the reason of the creation of this product range: **H-WRISTBY** is the disposable model generally used for hospital environments; **AT-WRISTBY** is the new pattern, developed in HF ISO15693, whose main feature is the special antenna design that suffers irreversible damages when removing or cutting the bangle; **T-WRISTBY** is the single use wristband in Tyvek material, that represents a great solution for event/race access control; **F-WRISTBY** is an high quality cloth wristband, stretchy and reusable, completely made in Italy; the last but not the least, **U-WRISTBY**, is the disposable wristband developed in UHF version.

Several customization are available: printing options, serialization with progressive numbers, Barcode/ QRCode, memory encoding or data insertion into database.

The sizes and the models proposed can be modified, developing new wristbands designed according to the customer's project needs.

RFID & NFC H-WRISTBY

Global Tag **H-WRISTBY** is the monouse wristband designed for Hospital and Healthcare applications, where the main need is represented by the track medical information or patient treatments tracking.

Also, it is a great solution for any other applications that require a disposable wristband, such as swimming pools, fitness centres, spa and resorts

This tag is available in LF and HF (also NFC) frequency. Different customizations are available.

RFID HF ISO15693 AT-WRISTBY ANTI-TAMPER

www.Global-Tag.com

Global Tag **AT-WRISTBY** (Anti-Tamper) is a RFID HF burglar-proof wristband, whose free removal is not allowed. Particularly, the special antenna design of this wristband implies an irreversible damage of the RFID HF ISO15693 tag in case of its removal or cutting out. It is due to the shape of the antenna, which extends along the entire bracelet. This special tag is the best solution for applications that require onetime-used wristbands, such as events with entrance fee or exclusive parties.

MAIN FEATURES

Material: Tyvek

Color: To be customized

Read Range: depends on the chosen frequency/chip

RFID Frequency: HF 13,56MHz ISO15693

Product Code: GT-AT_WRSTY-xx

RFID & NFC T-WRISTBY

Global Tag **T-WRISTBY** is a RFID HF disposable wristband in Tyvek material.

This wristband tag is very light and it has a very good price/quality ratio. It is possible to choose the printing option, starting from an artwork layout supplied by the customer in vectorial format. The antenna of this tag is placed externally. This special tag is a great solution for applications that require onetime-used wristbands, such as sport race with entrance fee or events.

Material: Tyvek

Delivery: In packs of 10pcs or singulated

Read Range: depends on the chosen frequency/chip

RFID Frequency: HF 13,56MHz ISO15693. HF 13,56MHz ISO14443, NFC

Product Code: GT-T_WRSTY-xx

For more information visit our product page on website

RFID & NFC F-WRISTBY

Global Tag **F-WRISTBY** is a high quality fabric wristband, designed for hotels, swimming-pools, spa, and fair access applications, but also for ticketing/micro-payment solution. **F-WRISTBY** is available in LF and HF (also NFC) bands, with many different customization like the choice of the background color or the complete customized printing. This product is made in Italy and it is subjected to meticulous quality controls

MAIN FEATURES
