

TAMPER EVIDENT WRISTBY

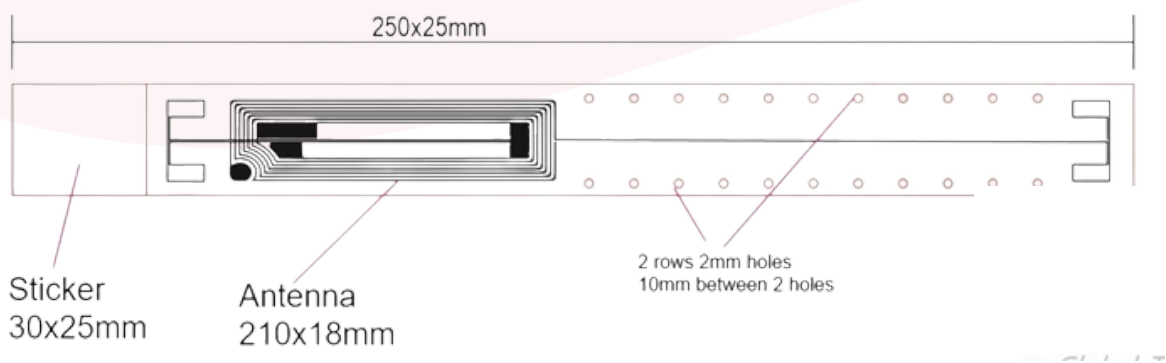

Global Tag **AT-WRISTBY (Anti-Tamper)** is a disposable HF RFID wristband specifically designed for applications where unauthorized removal or transfer between users must be prevented. Its anti-tamper construction ensures that the wristband cannot be removed and reused without permanently affecting its RFID functionality.

The special antenna design extends along the entire wristband and is engineered so that cutting or removing the bracelet causes irreversible damage to the HF ISO 15693 RFID transponder, preventing further identification or reuse.

AT-WRISTBY is particularly suitable for events, paid-entry venues, exclusive parties, access control and other applications where secure single-use identification is required. Its anti-tamper functionality makes it an effective solution whenever user authentication and controlled access are essential.

MECHANICAL AND ENVIRONMENTAL SPECIFICATIONS

Dimensions: 250x25mm

Weight: 1,5 gr.

Material: Tyvek

Color: To be customized

Class Protection: IP65

Storage Temperature: -55°C + 65°C / -67°F to +149°F

Operating Temperature: -25°C + 50°C / -13°F to +122°F

Weather Resistance: Very Good, including UV resistance and water splashes

Delivery format: Singulated

Expected lifetime: Years in normal operating conditions

CHIP SPECIFICATION AVAILABLE:

	HF 13,56MHz
Device type	N.D.
Air interface protocol	ISO15693
IC Type Available	I-Code SLIX, I-Code SLIS, STM LRi2k, other on-request
Size Inlay	210x18mm
Read Range	From 2 to 20cm

CUSTOMIZATION OPTIONS:

Silk Printing : 4-colors printing logo

Pre-Encoding: Customer specific encoding of EPC or User Memory
Locking permanently or with password. Insert into Database TID code.
