

LAUNDRY TEXTILE UHF 7010

Global Tag **Laundry Textile UHF 70x10mm** is a slim RFID UHF laundry tag specifically designed to withstand the demanding conditions of industrial laundry processes. Its resistant construction ensures reliable identification during repeated high-temperature washing, drying, ironing, water extraction and autoclave cycles.

The tag is available in two different versions: a sewable model and a heat-sealable model, allowing the most suitable installation method to be selected according to the type of garment and operational requirements.

Laundry Textile UHF 70x10mm is particularly suitable for the unique identification and tracking of garments, uniforms, workwear and other textile items in industrial laundry environments, supporting efficient textile management throughout repeated washing cycles.
